
MOD2

We provide an office automation software for **textile** importers and converters. We work with textile companies in the Apparel and Home furnishing market. Our application runs on PC's and is windows based. Mod2 is designed from the ground up to be used by companies such as yours, which specialize in importing textiles, domestic converting, distributing, and warehousing. We presently work with over 80 textile companies in USA and Canada, ranging from 5 users to 100 users in size.

We are familiar with the day-to-day operations of companies such as yours. Mod2 software is quite easy to use. We have been in the business of software for this industry for fourteen years. We manage and create **Purchase Contracts** to suppliers, **shipping advises**, **Sales orders** from customers, **open to sell** on future goods and on stock goods, **packing lists**, **invoices**, **Bar-coding**, **Proforma** invoices, **Commercial** invoices, **Delivery receipts**, **Costing**, assignment to **factors**, **RGA's** and **credit memo** returns, **sample room stickers**, salesperson's **commission** and whole lot more. Our system can easily **fax** or **email** a copy of a transaction, reports, ledgers to suppliers, customers, salespersons or anyone. A **web module** of our application is available. Your users including salesreps can login over the web with complete security and restrictions on the features of the program over an internet connection.

We use industry **standard SQL** data format to store your data, and can create reports in **Excel** and Adobe **PDF** format directly. Best of all, MOD2 comes with *friendly, caring* and *knowledgeable* technical support team, to guide and implement the features for your company.

We hope to be able to meet the needs of your organization for now and going forward. Good software will set the **foundation** for a company to organize and run efficiently. Let us organize and automate your textile company;
