

Please be advised that your next Mod2 update will include a new Email screen.

Here are some of the features:

1. Send Confirmation – confirmation is available via print or email.
2. Add Form – allows you to add any related form of the email context (i.e. Commercial Invoice, Country of Origin, Packing List).
3. Attachment – allows you to include any related attachment from the “Attachment” screen.
4. Load File – allows you to attach your own file from your local computer.
5. To, Cc, Bcc, buttons – clicking on these buttons will show all email address saved in the client’s account.
6. Attached – all attached forms or files will show on this part.
7. When emailing any transaction (i.e. Invoice), a preview of the transaction will show on the right panel.
8. History – this panel will show all email history related to the client.
9. Clicking on the email link will open up the Mod2 Email screen without any attachments.
