MOD2 INVENTORY SCREEN CHANGES

Please take note of the following changes on the Mod2’s Inventory Screen:

1. Moved the Family Toggle, Z Filter, and Add New buttons to the TOP RIGHT part of the display screen.
2. Moved the EIS, Quote, Demand / Hold, and Modify buttons to the BOTTOM LEFT part of the display screen.
3. When creating stickers or swatches, simply tag/check the items and either click on the SELECT button or press the ENTER button on your keyboard or DOUBLE LEFT CLICK using your mouse, on any of the tagged/checked items to proceed.
